

## **Buddhism: Teachers Lesson Plan**

This topic consists of 3 lessons which are question sheets. A story on the life of the Buddha has been provided. There is a short and long version of the story, the longer version is preferred. For each question sheet, the relevant part of the story needs to be read and the corresponding questions on each question sheet answers by Balvikas pupils.

A play has also been devised as an activity depicting parts of the Buddha's life.

Following the play the final lesson summarises the topic by getting pupils into 2 teams and getting them to think about the 8 codes as outlined in the lesson.
