Guidelines for Teaching Ramayana

You can read through sections of the book in each Balvikas session. For certain parts containing moral significance you can read through the section and have a debate or discussion with pupils to reason out what the moral is and why it is important.

After any section read you can get the pupils to do a role play enacting what happened in the section read.

A final guideline is when starting to read a section of the book recap with the children the important events that have already occurred in previous sections read.
